

```
query_columns< ::ebi  
::vcf::BodySectionError,  
id_sqlite, A::base_traits >
```

The diagram shows a vertical hierarchy of three boxes. The top box is white with a thin border and contains the text 'query_columns< ::ebi::vcf::BodySectionError, id_sqlite, A::base_traits >'. The middle box is gray with a thin border and contains 'odb::query_columns< ::ebi::vcf::FormatBodyError, id_sqlite, A>' followed by two rows of additions: '+ id' and '+ error_fix'. The bottom box is white with a thin border and contains 'odb::pointer_query_columns< ::ebi::vcf::FormatBodyError, id_sqlite, A>'. Blue arrows point upwards from the bottom box to the middle box, and from the middle box to the top box, indicating inheritance.

```
odb::query_columns  
< ::ebi::vcf::FormatBodyError,  
id_sqlite, A>
```

```
+ id
```

```
+ error_fix
```

```
odb::pointer_query  
_columns< ::ebi::vcf  
::FormatBodyError, id  
_sqlite, A>
```
